

Questions and Answers

Instructions

1. Each player needs 2 tokens to play this game.
2. Place one of the tokens on the number 0 and the other in front of you.
3. Before you start, deal 5 cards to each player.
4. On your turn, place your token in one of the boxes. You need to ask a question to your partners using that question word and as many of the words you have in your cards. Show all the cards you used. You may add any number of words to complete a coherent question.
5. Move your token around the board as many places as points you used in the question. For example, you asked "When do you play soccer?" using the cards 'play (1 point)' and 'soccer (1 point)'. You have 2 points for when and 1 point for each card you used. You should move the token 4 spaces.
6. After that, your partner should answer the question. He may use the cards he or she has to get some points.
7. Finally, every player should have 5 cards to start the next turn.
